# NICOLÁS BONDANCIA

Web Developer + Graphic Designer  
Photographer + Filmmaker

## PERSONAL PROFILE

In my life, I've collected an array of hobbies, or professions if you will: I am a web developer, a graphic designer, a photographer, a filmmaker, a guitar player... the list goes on. And not to toot my own horn (but sort of), I've actually been successful in all of my endeavours, mostly because I am methodic, resolute and determined but also because I am a creative mastermind. I enjoy the process of creating almost as much as I love Star Wars. I was born in Argentina and just moved to Melbourne, currently planning on staying and enjoying what this vibrant city has to offer for the foreseeable future.
